

Astronomy for Everyone: Size and Scale of the Universe

Friday, July 12th

at 7:00pm

To be held at the
Tuxedo Park Library

Presented by Kevin J. Manning, former consultant to NASA

Learn more about the beauty and harmony of the Universe.

It is a virtual journey throughout the cosmos looking at the very small and
the very large!

There will be a Question and Answer session for inquiring minds.

Following our indoor formal presentation, we will all go outdoors (*weather permitting*) to view through a powerful telescope, celestial objects in the night sky such as the rings of Saturn, craters on the Moon, etc.

The program is designed for those aged 12 years and older.
