DEIS

PRE. OF FRIENDS OF STERLING FOREST

My name is Doc Bayne, retired Park Ranger,  
Environmental Educator, Historian of Sterling Forest  
State Park and the Sterling Forest Gardens. And  
probably <sup>one of</sup> the most knowledgeable person's about

Sterling Forest, ~~here~~. FROM 10 500 YEARS <sup>ago</sup> TO TODAY.

~~I have~~ I KEEP HEARING ABOUT THE AIRPORT RUNWAY

What airport are they talking about????? RC Club

I ASK YOU TO THINK ABOUT THE STATE PARK

The park is not a good place for the casino.

Sterling Forest State Park was created for the  
preservation of the forest and animals.

Insects are attracted to bright lights.

Bats are attracted to the insects.

Owls are attracted to the insects and bats

Frogs and toads are attracted to the insects under the  
lights.

With all of this light attraction extermination will  
follow because the insects will bother people in the  
area, bats and owls will start nesting in the forest and  
on the buildings.

12/08/14 #15  
(Speaker #18)

With the presents of these creatures the management will start spraying for insects and killing the bats and owls nesting on the property.

Animals eating the poisoned creatures will die not to mention all the animal, birds, reptiles and amphibians that depend on the insects throughout the park for food will starve because the insects will abandon the park property to go to the lights.

More points of concern are the wetlands creatures that will be poisoned by the runoff of chemicals from the spraying of pesticides, herbicides and gas and oil from vehicles in the parking lots and roads, also the road kill that will happen in the park due to the large amount of traffic that will be drawn to the casino.

IN THE LAST WEEK I SAW 1 SPAN AMIN, 1 BEAVER, 2 DRAK, 2 RACONS & ONE  
1+ WIL COMP  
PLEASE EXTEND THE TIME TO JAN 31  
PONTIAC

**DON'T DO IT !!!**
